Experience Innovation in Real-time – Thermography Information Events 2013 by InfraTec

A compact knowledge transfer on infrared technology

Themed “Experience Innovation in Real-time” InfraTec once again introduced amazing new products and solutions to several hundreds of industrial and research opinion leaders during the 2013 company roadshow.

At 8 different venues the focus was on introducing the latest high-definition generation of thermal cameras featuring megapixel detectors. The ImageIR® 9300 and VarioCAM® High Definition series impressively demonstrated their advantages by utilizing real-life thermography scenarios to the interested roadshow visitors.

Numerous application examples and the multitude of options offered by the new thermography systems up to implementing ambitious automation solutions gave a comprehensive thermography overview.
